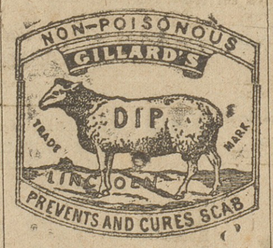
GILLARD'S
SHEEP DIP



This Dip is most carefully prepared by the latest improved methods and can be used with

Supplied to the Prince of Wales's Farm at
SANDRINGHAM
TESTIMONIALS.
From Mr. JOHN J. MAHON, Capilla del Señor, June 29, 1881.—The dip which you sent me I used according to directions, and I can assure you that it gave the desired result. During four years of practical experience of curing scab in sheep, I have seen many specifics used, and consider Gilliard's the only one that gives complete satisfaction. It improves the quality and promotes the growth of the wool. For efficiency, economy and facility of application, I prefer it to any dip I have used.
From Mr. JAMES M. THOMAS, Estancia Santa Ines, Monte, June 29, 1881.—Having given a good trial to Gilliard's Dip, I have much pleasure in bearing my testimony to its valuable quality as a Sheep Dip. It destroys all insect life with which sheep are infected, mixes readily in cold water, does not injure the hands, and softens all hard parts of I shall strongly recommend it whenever an opportunity offers. As regards the cheapness, it should command a good sale.
From Mr. Wm. Petty, Estancia Caro, Colonia, Sept. 20, 1881—
"I feel great pleasure in informing you that the sheep dip supplied by you to me under the name of Gillard's Sheep Dip has had surprising results on my English long-woolled rams; it has kept them entirely free from scab after only twice using it, although those rams have been constantly running in a flock of scabby sheep. I intend for the first time to give it a trial with the whole of my English breed of sheep as soon as I have them shorn, as I feel satisfied I shall with that did keep scab out of the flock."
From Messrs. Patrick Mahon, junr., Ciriaco Morales, and James Murray, Capilla del Señor, Sept. 18, 1881—
"It gives us great pleasure to inform you that, after giving a good trial to Gillard's non-poisonous sheep dip, we can pronounce it to be the best specific we have used as yet, and we are fully determined for the future to use no other remedy."

TRIP TO RIO NEGRO.
PATAGONIA.
We weighed anchor at noon on Saturday at Bahia Blanca, and, after a sufficiently tossed-about run, entered the Rio Negro and anchored before the bar at 11 a.m. The Bay of Bahia is an immense waste of water. We met Captain Howard, of the Vermejo, in Bahia, who has so quickly and ably buoyed it. He is a young man of promising professional ability, and thought a good deal of in naval circles. He will probably be sent down next month to buoy the Bay of San Blas, perhaps the very best, easiest, safest, yet most neglected harbour on the whole coast, having a fine wide channel, of eleven fathoms of water,

As Captain Sp[illegible] out from the coast, we [illegible] out for the sea, which is as smooth as a lake. The sail down is very monotonous. We can hardly see Green Island, which is at present the estancia of Mr. Sassenberg, jun., and as for the mouth of the Colorado, we can only see it on the chart. About 3 a.m. we altered our course and headed due south, and now the Villarino rolled and pitched, as the sea breaking for the shore caught us broadside.

We are now, the captain tells us, in front of San Blas, but too distant to see it. This is the first time that we feel the heavy swell of the terrible South Atlantic, and shortly after sunrise we descry a tall peak, Punto Raza, which lifts its high head over the smiling estancia and sheepfarm of the Messrs. Buckland's. The whole line of coast is now easily described. All along the coast hereabouts are estancias, and just as we dash breakfast the pilot, [illegible] comes on board and tells us that at two o'clock the tide serves and we can cross the bar. The pilot is bred, born and reared to his perilous profession; his father, Mr. Abel [illegible] Dane, having been pilot on the bar for the last 40 years has now retired, and lives in ease at his house in Patagones. In his day many st[illegible] were told of him. A strong, po[illegible]ful, able man, he once killed [illegible] Indians who attacked his estanci[illegible] which is at the mouth of the Ri[illegible] Negro, and which we see as we pass up,

At two o'clock we crossed the bar without the least difficulty and entered the Rio[illegible] of the Republic. Nothing can surpass the beauty of the scenery as we enter the river, the mouth of which is very narrow, hardly a mile wide, and on the south side a high promontory forms a very bold headland. The camps, we note, are studded with cattle, and, to show how bargains are won, a fine property, five square leagues of land, was offered to every one on the Bolsa and in the market a few years ago for $100,000 m|c, could not be sold, and lately was purchased by a Basque for $100,000 m|c: to-day that property could not be purchased for half-a-million.

On the left or north bank the estancias stretch down to the river, and the distance from town to the bar is 21 miles, and as we near Patagones beauteous islands spring up in the middle of the river, whilst tall poplars fringe either bank. We pass the estancia of Dn. Manuel Crespo, one of the oldest residents, a beautiful spot, and here we note a 'rodeo' of cattle close to the river; these cows belong to the writer, and were published in Buenos Aires as carried off by the Indians; whilst on our visit we sold them 'al corte' at $300 m|c each, realising on an investment of $130,000 m|c a clear profit of $62,700 m|c in 4 months, a business surer and better than dry goods or Bank shares.

At 2 o'clock we sight the two towns, for there is a town on either side of the river, the old Provincial one called Carmen of Patagones and the new one called Viedma. Right down to the river are the poplars of Dr. Humble's beautiful quinta on the south side.

We moor the Villarino alongside a short, ricketty, old mole, and in an instant we are boarded by a crowd of friends, who envelop us all. Kincaid, who knows every one in the place, has to stand beer 'ad libitum.' Soon Mr. Jose Atkins, our 'apoderado,' comes on board, and we go ashore after a pleasant and agreeable voyage, rendered doubly so by the kind attention of the polished gentlemanly commander, Captain Frederick Spurr, one of the best and most experienced seamen in the Argentine navy.

THE ALSINA STATUE.
Seldom has the population of B Aires turned out in greater numbers to witness a popular spectacle than it did on Sunday last to see the unveiling of the statue of the late Dr Adolfo Alsina. If posthumous honors be a reliable test of a statesman's popularity, the 'manes' of Alsina may well be satisfied. The 'fiesta,' if the word may be used in reference to such a solemn occasion,

As President Roca rose his speech comparative silence on the crowd. H. E. said:—

of the Gracchi struggling for the liberties of the Roman People rose to my memory. To such a noble stock he undoubtedly belonged. Like unto those great tribunes, his memory will live for ever, as those nations that are conscious of their great destinies honour themselves in doing honour to their heroes, martyrs and benefactors, keeping their memory green as a sacred trust and a perennial example of abnegation and patriotism.

While I do not aspire to utter the panegyric of the great Argentine whose effigy I am about to unveil to your sight, I must evoke the remembrance of a youth cut off in his prime, and to whose efforts the monument before us is mainly due. Enrique Sanchez, that truthful, enthusiastic and energetic young man whom we all knew so well, carried his friendship and devotion to Adolfo Alsina to the highest form of expression, so much so that even on his deathbed the sound of his voice caused him to rise as if galvanised.

How great would be his joy if he could to-day look on the statue of his master and friend in the proud attitude of addressing the masses with his fascinating eloquence. But alas! he had not the happiness to see his work finished: Like Alsina himself, who did not live to see his own work completed by the extension of the frontiers to the Rio Negro, and the Pampa, then the theatre of the bloody deeds of the savages, handed over to Civilization and Labour, like the tender ivy round the oak, which cannot survive its supporter, he fell gently before the finger of Death. Such is the destiny of those exceptional and privileged beings who are born for but one passion. When the object of their veneration falls, they fall. They fulfill their mission. At least let the name of Sanchez be linked to this monument as an honourable example of adhesion and fidelity.

Gentlemen!

In compliance with the duty assigned to me by the Committee, I am about to unveil the statue. You are about to see in granite and immortal bronze the haughty and noble figure of Adolfo Alsina which will stand in this Plaza de la Li- as an eternal lesson of civic to comming generations, suc- each other as the waves of and each depositing its t Work on the altar of the greatness (Tremendous r several minutes).

Avellaneda and Dn. A. ad spoken, the Socie- s on the ground de statue, and the great day was over.

ALSINA.

was born on the ; his father was Alsina, and his onia Maza. His Don Juan Alsina ad Don Manuel of Buenos Aires, of the Chamber In his early aquero's clerk: movements bet- the hope of high ... setting aside hides, he used to read.

Shortly after the battle of Caseros he became editor of the *Nueva Epoca*, and from its columns attacked General Urquiza. When Urquiza besieged the city, Alsina enlisted as simple soldier; he was made Commander of National Guards at Cepeda, where his military talents were noticed by General Mitre and others.

He was named member of the Convention created to study the proposed reforms of the B. Aires 1853 Constitution; later on he was elected by Buenos Aires deputy to the Congress in Parana. In the battle of Pavon he commanded a brigade of infantry and saved the artillery by a quick movement of the troops under him.

In 1862 he was elected National Deputy for Buenos Aires; he displayed vast knowledge on all subjects in the debates: his great speeches were on the federalization of Buenos Aires, and on the election of a Corrientes deputy, named Camelino.

He became immensely popular by his opposition to the federalization of Buenos Aires. The Nacionalista party, under General Mitre, wished to the federalize Buenos Aires, and was opposed by the Autonomista party under Alsina. The efforts of Alsina in the Chambers and with the electors prevailed.

In 1865, he was attacked by the disease that subsequently carried him off; he left for Europe, but came back soon. He was proclaimed candidate for the Governorship of Buenos Aires, and succeeded to Don Mariano Acosta. As Governor he consulted the interests of the province and introduced important reforms in the frontier question, in public lands and in the Provincial Bank. His great desire was fulfilled when the 'Oficina de Cambios' was opened.

On the 15th June 1868 Congress proclaimed Domingo F. Sarmiento President of the Republic, and Dr Don Adolfo Alsina, Vice-President; his father Dr Alsina presided over the assembled Congress, and unable to overcome his emotion, had to let the Vice-President of the Senate call out the names. Dr Alsina, as Vice-President of the Republic, could only act in a very limited sphere, as he only presided over the sessions of the Senate.

In 1870 we see him again to the front in the Convention of that year, and this year he made a memorable speech in favor of State religious.

In 1873 he is candidate of the Autonomista party for the Presidency of the Republic; the Nacionalista party supported General Mitre; later on another candidate appeared on the scene—Dr Avellaneda. On the 16th March, 1874 Dr Alsina issued a manifesto declaring that he resigned as candidate, giving plausible reasons for his unexpected conduct. The Autonomista party under his guidance, supported Dr Avellaneda. Then came the September revolution. Dr Avellaneda is proclaimed President of the Republic, and he makes Alsina his War Minister.

Later on Dr Alsina begins to broach the frontier question: all his energy, talent and perseverance were devoted to this question: he himself entered into every detail and organized everything with extraordinary patience. On his return from the frontier he found politics in Buenos Aires in a very unsettled condition: Don Carlos Casares, Governor of the province, helped by Dr Alsina, began the new conciliation policy that removed all dangers from the political horizon. But Dr Alsina's mind was settled on the frontier, and on the 29th October 1877 he left again for the new frontier line, a work of his own creation. Here he felt an attack in the head and was delayed two days in Azul. On the 1st Nov. he passed Fortin Lavalle, where the fever prostrated him again. In Carhue he gave the necessary instructions to attack Catriel.

On the 12th he received the news of Catriel's utter defeat. In Carhue he had a relapse; his features had undergone a fearful change and he could not stand without support. But such was Alsina's strength of mind and energy, that he pursued his route to Guamini: from here, he intended to march to Trenquelauquen, but had to return to General Paz. He made for Nueve de Julio and then for Bragado, where he took the train on the 23rd. In midst of all his sufferings only one idea haunted him in his delirium—the frontier. On the 28th a further relapse brought all his friends to his bedside; on the 29th the pains were so great that he begged of Dr Montes de Oca to give him death's relief, and he died shortly afterwards in the arms of Varela. In death he preserved the same arrogant attitude that made him always so conspicuous amongst his friends and his enemies.

EDITOR'S TABLE.

The great business and pleasure of Sunday last was that of unveiling the Alsina statue and wishing everybody a Happy New Year. We describe the first ceremony in another column, but the frequency and warmth of the second baffles all description, so we wont attempt it.

We have a bit of excellent news for our readers: The cowardly assassins of poor McDonald and Guthrie, while being conveyed from Naranjitos to Parana for trial, under the personal superintendence of the Gefe Politico Sr Casco, tried to escape, and their funerals took place early the following morning. Every man of them shot down. So ends this sad and tragic history. Mr Casco deserves another sword. If we only had a dozen Gefes like him scattered through the country, murder would soon become unfashionable with camp banditti.

Telegrams from Europe announce a sudden rush to the front of what is known as the advanced republican party in France. Part of their programme is the complete separation of Church and State, the suppression of life Senators, and this Chamber to have the right of dissolving the other on the proposal of the President of the Republic. What is Gambetta at now? The telegram ascribes an 'importancia alarmante' to this new move on the chess-board of French home politics.

We had the pleasure of a visit yesyesterday from Mr. Bowring of Salto, Banda Oriental, and were glad to see him in excellent health. He reports things up there to be ineffably dull, and the Santa and Santa Rosa Railway as gone to the dogs.

We commend to everybody a careful persual of the article on Heads and Hats in our Supplement. This is a country of small heads as a rule, but we should like Mr. Sommer and other fashionable hatters to send us the size worn by the most distinguished of their customers, to see if the hat theory holds good in this part of the world.

The masquerade ball season began on Saturday night, but very little 'entusiasmo' was observable. There was a fair attendance at the Skating Rink, but the French Theatre was deserted. As usual, rows and free fights were the recreation between the dances, and often while they were going on.

A colleague cries 'Charge, Chester, charge' to the legions of place seekers. The post of Accountant in the Western Railway is vacant: at least it was yesterday.

We hear that the Flores Archery Tournament is likely to be a very grand affair indeed. The bows and arrows are ready, and the benevolent lady who has purchased them now calls for ladies and gentlemen to use them. Mr Saturnino Unzue has lent a nice piece of his property on the Flores Road for the Archery Ground, which will be inaugurated with a Grand Fair, English fashion, with such addenda as roulette, cakes, ice and cigars, high tea and higher coffee, 'musica' etc, etc. To wind up, there will be a monster New Year's cake, with 12 gold rings in it, representing matrimonial fate for as many fair ladies and young gentlemen. On the last day of the Fair the Cake will be raffled for. Any Sherwood Foresters wishing to practise will learn all particulars at Mr Torres's quinta in Flores. The proceeds of the Fair will be devoted to the completion of the church at Flores.

The bull fight at Montevideo on Sunday was the most miserable affair of the kind ever seen there. Only one out of half a dozen bulls showed any fight, and there was such terrific hissing and groaning by the audience that it was feared they would sack the place, but we believe they refrained from doing so

Rain and want of reapers have lost half the wheat crop of Tucuman. The last rain storm was a sneezer.

We feel pleasure in saluting Mr Mallet, H.M. Vice Consul in Rosario, who is in town for a few days.

There is no longer any doubt as to petroleum having been found in the province of Jujuy. Dr Brakenbusch, the Cordoba savant who was sent up to have a look at the 'ile,' says it is the genuine article beyond a doubt.

Those who suffer from deafness will be glad to learn that Dr Frank Valery, a Parisian specialist, has invented an 'acoustic cane' which enables the deafest person to hear as well as the pig, an animal that can hear the grass growing without being obliged to put his hoof behind his ear. For ladies there is another ornamental apparatus to replace the cane.

The returns of the British Hospital for December show 29 patients in the house on the 1st, 47 admitted, 41 discharged, 2 buried, and 33 to begin this month with.

It is time for the Municipality to look after the tramway horses; the poor brutes are fearfully overworked this hot weather; if the cars were not so shamefully overcrowded it would not be so bad. It would be a blessing if compressed air, electricity, or some other motor could be substituted for horses here. The Companies' profits would be swollen enormously by the reduced expense.

'Mirabile dictu.' On Saturday, in Calle Victoria, a carter was endeavouring to force his worn-out horses on under a load of paving stones fully treble the weight allowed by the recent Municipal edict. The savage got into a passion with the poor brutes and struck one of them such a fearful blow with a heavy stick that he broke the animal's leg and it fell to the ground with a pitiable moan of pain. A gentleman passing by called the attention of the 'vigilante' at the corner to the brutal act, and he absolutely arrested the carter. This is the first time we have ever had to chronicle the action of 'la autoridad' in cases of hideous cruelty to animals. Perhaps the vigilantes have received fresh orders in these cases. We most devoutly hope so. Another order they should receive is to stop peremptorily every tram car that is overcrowded and make the overplus of passengers alight before the car proceeds. By this means the companies and the public would both become careful about overcrowding the cars. Another horried case of goring a fired bullock under a cart was witnessed by a subscriber on Sunday morning. The driver gored and gored till the poor animal was half mad with pain, and when remonstrated with by an indignant bystander the fellow said 'Capricho del animal, no mas!'

Mr Charles Carranza, Argentine Consul General in the United States, has arrived on a short visit to his family and friends. We feel much pleasure in saluting him.

Dr del Viso, Minister of the Interior, is expected here this morning from Cordoba and will resume his portfolio to-morrow.

Our Packet Edition for the R.M.S. Mondego will appear to-morrow.

We remind our readers of the pleasing fact that Friday next will be Twelfth Day and a strict holiday, even for editors.

We cordially salute and send our best wishes to our esteemed colleague the *Nacion Espanola*, which was a year old on Sunday.

We hear that at the midnight service on 31st December at the Episcopal Chapel at Flores, there were between fifty and sixty persons present, and that at the service on Christmas day the congregation numbered upwards of ninety, all being persons residing at or near Flores; this speaks for the interest and the life with which the congregation is being imbued by the efforts of the chaplain, Mr Spilsbury, and shows the great importance which Flores is assuming as an English suburb.

The Emperor Dom Pedro sent a beautiful Christmas box to Victor Hugo's grandchildren. Amongst the numerous presents it contained was the 'Prayer for All' of the old poet, beautifully printed in gold letters and set in a frame of gold exquisitely wrought, with a large diamond in each of the four corners.

The Humber's mails announce the increased probability of the Pope leaving Rome soon.

No Municipal Law for this year. The National Chamber of Deputies has accepted the President's veto on the Bill and passed a short Act authorising the Municipality to levy the same taxes in 1882 as last year. The poor Municipal Bondholders! We feel for them.

The new theatre in Calle Florida will be inaugurated on May 20th. In spite of the remonstrances of the press and the awful warnings at Nice and Vienna, we perceive that the large iron gate of the new theatre opens *inwards*. We hope the inner doors are not made on the same dangerous principle.

In Montevideo they have a new Masonic organ with the euphonistic name of the *White Glove*. The number of buttons is not stated. We hope it will fit its subscribers and wont burst in trying on.

The Western Railway Board, paid a graceful compliment to the President of the Republic the other day. It took the shape of a season ticket on the Railway and a special carriage for his own use. The season ticket is a little gold medal. This our democratic President accepted, but the special carriage he at once declined with thanks, saying that he much preferred travelling with his fellow citizens to being cooped up by himself.

Here is a splendid chance for southern estancieros to improve their breeds of sheep and cattle. We hear that Mr. Muggeridge, of Las Horquetas, Sauce Corto, will commence a series of annual auctions on August 1st, 1882, at his estancia. The auctions will consist of pure-bred Rambouillet rams and pure-bred Durham bulls, the pedigrees of which will be given at the sale. In his flock of 84 sheep and 78 lambs (with from six to eight months' wool) the average weight per fleece has been 7lbs: one ewe clipped 12lbs, and when put on the scale shorn she turned the balance at 150lbs. It must be borne in mind that these sheep are campfed, and are not as yet acquainted with the luxuries of the stall, and also that the wool is exceedingly light and clean. We state, as a remarkable fact, that the increase from September 1880 to September 1881 was 129 per cent., excluding all casualties. The situation being easily accessible, and the animals to be auctioned of sterling value, it is to be presumed that the estancieros of the south will avail themselves of this easy method of securing a bargain.

VALUE OF PAPER-MONEY.

From Nov. 30th, and until further notice the National Offices will receive the Notes of the Provincial Bank for their written value.

EMILIO CIVIT.

ON 'CHANGE.

January 2nd

Patacons ..... 96.—
Cedulas A 100
National Bank Shares... 125½

The Bolsa opened this morning very dull; the operations were limited so-to-say to Nat. Bank Shares. In gold the transactions were very insignificant, and will continue so for some time until the demand for gold up rivers becomes more active. The sales to-day amounted to 3,800 pats at 96.

Cedulas A maintain their par quotation. There is some talk of a new emission of the Series, but we think same improbable under the circumstances, and the days of 8 per cent emissions have gone by. In connection with the Mortgage Bank several parties on 'Change much admired Deputy Ladislao Martinez's speech on the Mortgage Bank Bill. Whatever Deputy Martinez defends, he defends well. In Series E there was nothing done, and the market in general maintained a very dull aspect.

The speculation in Nat. Bank shares opened briskly, but all anticipate a dull fortnight in the stock. The stock has been in demand during the latter part of last month, with a view to secure the shares and influence the nomination of new directors. At the liquidation many parties refused differences and exacted the shares from the brokers for the object. To-day the market was rather taken by surprise, when a party sold off 3,000 shares for end of month at 126. The brokers puzzled their brains to peer into the 'coulisses' of the operation, and the market remained undecided as to the ulterior consequences of the transaction; same was effected with a mutual guarantee of 40,000 $f. The sale was so large and so unexpected in the present state of the market that it naturally attracted much attention; the market was weakened and fell from 126, the rate of the large sale, to 125½ for end of the month. Rates for cash were firm at 125. The attention of the Bolsa is fixed on the nomination of the new board and the approaching dividend of the Bank, supposed to be 5 pats. par share. The Courts will open soon, and the judicial deposits must flow to the vaults of the Bank. All the circumstances tend much to influence the quotations of the stock during the month, and if the anticipations of the market turn out true with regard to the new Directors, we may look forward to a heavy rise in the stock. The sales to-day for cash amounted to 500 at 124, for end of month 4,749 at prices fluctuating between 125 to 126, the market closing at 125½.

In exchange very little done this morning, and rates nomiual.

Nothing whatever done in National stocks.

The following charters are reported in Montevideo:—

Span. brigantine Anita to load in Sacra [Paysandu] 4,000 qq. tasajo for Brazil at 4½, 5½ and 6½ and 5 o/o

Span. brigantine Maristany to load in Paysandu for Bahia or Pernambuco 4,000 qq. beef at 5 rls fts and 5 o/o for the former, and 5½ rls fts and 5 o/o for the latter place.

Mr Deany, of the leading Boston hide firm Richardson and Deany, was warmly welcomed on 'Change. This is his first visit to the R. Plate, and all the hidebrokers were in good spirits to hear of his arrival.

Complaint is made about the delay of some of the steamers in Montevideo and on the way out and not entering before the new year; the matter makes all the difference in the world to importers whose goods come under the new duties.

At afterhours little was done in National Bank shares: the market was very undecided and closed at 126 for end of month. It was rumoured that one very heavy holder is selling out.

The Bank to-day discounted little, something near a million dollars only; the applications were few.

Some exchange was done at 50½ to 50¾ on London; 5.32 francs on Antwerp; 5.31 on France; two private banks entered the market takers.

Messrs Rivera & Co sold to-day some 1,200 ar of wool to Mr Thomas Reddy at 82 m/c.

The Good Hope, here in port, has 1600 tons of iron sleepers on board for the National Government; she will discharge some 600 tons of cargo here in Buenos Aires. We hear that Mr A Paz, the Government agent, has to send several thousands of tons more, and has great difficulty in carrying out his orders.

The arrivals in the Once have been few; some 30,000 ar of wool arrived during the two days. Business is always brisk, and the barracas have very few wools left.

The 'solicitud' of the merchants regarding the Catalinas mole has been studied by the 'alcaide' and passed to the contador.

The Senate, we see, has made an amendment in the Lanus deposits item of the budget; the monthly quota has been raised to 6,900 $f per month; very good news for the shareholders.

Freights are very brisk, and plenty of produce offering for all the steamers in port and to come this month; in Montevideo heavy shipments of wool may be expected this month. The saladeros of this province are now all working, and the 'faena' may be expected to come in pretty heavily in the middle of the month.

The new Board of Directors met in the Provincial Bank to-day, under the provisional presidency of Mr Tornquist; the Vice-Presidents were named, Messrs Tornquist and Villamayor.

The esteemed manager of the W. Railway, Mr Ringuelet, is reported will soon leave for Europe.

The Province of Buenos Aires during the year 1881 has given the Government in taxes, patentes, stamps, etc., the round sum of 55,500,000 $; the Contribucion Directa gave over 21,000,000.

The pilot-boat Adelaida ran aground this morning and finally foundered in front of the Recreo near the Retiro: she had rails embarked for the Northern Railway.

The Uruguayan cutter Guardia Nacional has foundered at Punta Negra: crew escaped.

Some very improper remarks were offered in the papers about the Mortgage Bank, and the non-payment of the coupons on Saturday. It appears that as these coupons only fall due at the end of the quarter, the board has very properly ordered that henceforth they be paid on the 1st. of the month, the same as the coupons on the Nat. Bonds and other stocks. Today the coupons were paid with the strictest punctuality by the Bank Treasurer, and it was owing to the rather informal custom of paying these coupons the day before due that the remarks which we refer to were made by the papers. There is no better or safer stock in this market than the Cedula, and the impression on the Bolsa is that series A is going to a handsome premium. We compliment Dr. Llambi Campbell, the talented president of the Bank, on its most flourishing condition and trust that the new year will prove as prosperous for the Bank as the last.

The following sales of Bushental Bonds reported this afternoon:

800 cash at 98
5000 end month, 98

a capital purchase.

At 4 o'clock to-day the liquidator paid out the differences from the month's liquidation; all the Bolsa won this month.

This month we hear the new English Bank The Trust Co. will make its start. Mr R. Neild we hear will be the manager.

Governor Rocha paid a friendly visit to President Roca to-day at the Government House, and yesterday H.E. Dr Irigoyen, Foreign Affair Minister, paid visits to all the foreign Ministers.

The Sales at afterhours were—

The Allan line steamer Grecian arrived at Montevideo on Saturday evening, 31st Dec. She brings London dates of 8th Dec. and Havre of 8th Dec. Her mails will be up in the morning.

Half a cargo of Cadiz salt has been sold at 6 rls. fts. in Montevideo. Some sales of sugar are also reported at 18 and 16½.

The returns of the Western Railway for 1881 show the immense progress of the North Western camps; the figures are as follows:—

Returns	$41,500,000
Expenses ...	20,369,000

The returns in the last few years have been as follows—

1879	$36,000,000
80	35,000,000
81	41,500,000

The total returns including payments by Messrs Baring Bros., &c during 1881 amounted to $61,925,488.12. The Provincial Government puts aside as clear profit for 1881 $7,462,464. The fact shews the good sense and moderation of the Rocha Government; the remainder sums are put in the reserve fund, extensions, &c.

The following returns of the Custom House for 1881 shew the fallacy of calculating increases when discussing budgets. The year 1881 has been a most prosperous one in every sense, and nevertheless, we see that in a Custom House point of view the year 1880 with its revolution, blockade, &c., was more prosperous than 1881. It would be a sophism to judge the wealth of the country merely by the figures of the 'Aduana' in the Paseo Julio. The following are the figures for 1881:—

January	$1,439,144 58
February....	1,104,070 74
March	1,439,017 27
April	1,270,673 64
May	1,302,855 45
June.....	1,158,370 36
July	1,269,132 93
August	1,150,761 84
September ...	1,142,751 14
October	1,250,980 73
November ...	1,118,663 59
December	1,626,146 25
	$15,204,088 01

Comparing the revenue of the Custom House for the year 1880 with that for the year 1881, we have—

1880.....	15,576,189 pats.
81.....	15,204,068
Decrease....	372,121 pats.

Thus we see at a glance that the Custom House figures are no very reliable barometer of prosperity in the country, since all will admit that 1881 was a far more prosperous year than the revolutionary 1880.

The statistical returns of the Boca are simply extraordinary; the entries of ships and tonnage for 1881 were as follows:—

Entry	37,000
Tonnage	800,000

The figures for 1877 shew:—

Entry	13,000 ships
Tonnage	220,000 tons

The increase is very great, and with a better port and deeper channel we might anticipate double the figures of 1881.

We call the attention of those of our readers whom it may interest to a very good work just published on book-keeping and accounts; it is the most complete work of the kind we have ever seen and every clerk in town should buy a copy. It is in Spanish and is written by one of our most promising young lawyers, D. Felix Martin Herrera; the name of the work is "Bontabilidad y Teneduria de libros." It is a vade-mecum.

Over 30 steamers, it is thought, will leave this harbour during the month, taking an average of 2000 bales per steamer; we see that 60,000 bales will have to be exported to meet the demands of shippers. Happily there will be plenty of produce this month, besides wool. We may expect large engagements of cereals and hides.

The Rosario Custom House is supposed to have yielded in 1881 over $21,000,000; thus Rosario must grow seven times more before it can compete with Buenos Aires. The figure nevertheless, is a large one when compared with former years The emigrant and the steam engine will yet make Rosario the great emporium of the Republic, and this before long.

As regards the wheat crop in this province nothing definite is known, as neither Jueces de Paz nor Alcaldes can give any figures in this respect. It is generally thought that the crops have been somewhat injured by the bad weather, but that in spite of all the returns will be large. In Santa Fe the harvest is expected to be exceedingly abundant, although the quality of the wheat in the Northern colonies is not very good. The grain on the Central Argentine wheat fields is pronounced excellent, and everything prognosticates a prosperous season as regards the transactions in new wheats it is stated that none have taken place, a statement which firstly we understand to be erroneous and secondly is improbable, as every year contracts for the new wheat are made beforehand, as many have known to their cost. In flour of the new harvest for example already 2 cha'ters have been made for Brazil, one an English, the other an Italian barque.

The following real estate sales were reported yesterday at the escribanias:—

Sheepfarmers and estancieros will be much interested in reading the following very splendid testimonial, which has come out by the mail, and it affords us much pleasure to publish it:—

Liverpool, Nov. 23rd, 1881
Messrs Runciman & Co.,
B. Aires.

Dear Sirs,

We have received from you through our friends Messrs Gilmour & Co of this city, a tin of 'Little's Sheep Dip non Poisonous Chemical Fluid' which we have handed to Mr. A Norman Tate, F I.coe of the Institute of Chemists, with the request that he would analyse the contents and apply a portion to samples of River Plate Merino Wool which we furnished him with.

In continuation we hand you his report as follows:—

"I hereby certify that I have examined the contents of the canister labelled 'Little's Sheep Dip non Poisonous Chemical Fluid' and have subjected to its action several specimens of Wool sent to me by Messrs J L Bowes & Bros.

"I find that when the wool is treated by this fluid for a greater length of time than it would be under ordinary circumstances of sheep-dipping and even with the solution in a much more concentrated condition it is uninjured.

"The Wool is indeed by such treatment and subsequent washing with water rendered much cleaner and the fibre is in no way injured.

"Further, the solution must certainly prove efficacious as a preventive and remedy for the many skin-diseases parasites &c that sheep suffer from; and must also in my opinion exert a stimulating action on the growth of Wool.

"(Signed) "A NORMAN Tate. F.I.C."

Having received from Mr Tate the samples of Merino Wool which he had treated with the Dip, we sent them along with a sample of the same wool in its natural condition to Mr T R Clarke of Leeds a consumer of such wool and a gentleman of great skill in its manufacture, asking him to give us his opinion as to whether the use of the Dip had in any way injured the fibre or color of the wool and we have a report from him stating that, after scouring and carefully testing the samples he finds that the process of dipping has in no way injured the staple and that the wool so treated scours even a purer and brighter white than the wool in its original condition.

Yours faithfully,
(Signed)

78—— ALSINA——78
El Jueves 19 de Enero
A las 3 p.m.

Remataremos a la mas alta postura y dinero de contado pasando la base arriba indicada por orden terminante de sus propietarios y por liquidacion de sociedad estos magnificos campos situados en el Partido de Bahia Blanca, y que podemos reputar sin exageracion alguna los mejores, en cuanto a pastos y aguadas permanentes de aquella localidad; campos poblados hace arca de 31 años.
Los Manantiales—(Plano A)
LOTE No. 1—Una suerte de estancia o sean 4 legua con frente al Naposta Grande arroyo de agua cristalina, permanente y dulce; linda por el N. Este con D. Sisto Laspiur, por el Sud, Oeste y Nor Oeste con Jorge Claraz; tiene una poblacion construida de piedra y barro con techo de fierro de 4 reales por vara cocina con techo de paja y un corral de piedra para ovejas, grande y bien situado.
LOTE No. 2—Se compone de 4½ leguas mas o menos sobre el Naposta y linda por el N. O. con los Sres C Houssey Arce y Chautini; por el N. Este con el lote num. 3, y por el S. Oeste con Cuquet, Bajo Hondo y el Estado. Tiene en el Centro del campo, la Laguna de Manantiales y el arroyito del mismo nombre: las poblaciones son: sobre el Naposta grande uno de dos piezas de material y un pequeño galpon de lo mismo; otro de dos piezas, uno de adobe crudo y la otra de piedra con un gran corral de piedra para ovejas.
La poblacion de los Manantiales se compone de tres grandes piezas de material de adobe crudo con techo de tabla y fierro; a mas dos puestos construidos con los mismos materiales que estos ultimos.
LOTE No. 3°—Lindero con el anterior y se compone de 3 leguas aproximadamente con frente tambien al Naposta y fondo hasta el Bajo Hondo; tiene tambien una laguna 'Los Salados', una poblacion sobre el arroyo de una pieza de piedra como las anteriores y dos poblaciones de adobe crudo con techo de fierro
El total de estos campos, conocidos por los Manantiales dista dos leguas y diez cuadras deste el Esquinero Oeste a la plaza del pueblo de Bahia Blanca y su superficie total segun la reciente mensura practicada por el agrimensor D. Federico Gomez Molina, se compone de 8 leguas cuad. mas 538 cua. cs.
La calidad de la tierra es en todas partes vegetal, arenosa hasta una profundidad que varia entre media y tres cuartas va., pero se nota de una manera bien clara la fecundidad de ella, en los parages donde ha sido removida, ha brotado subitamente y en abundancia el trevol de carretilla y el alfilerillo, ambos pastos tiernos y dulces.
Aguadas—Tiene el Naposta Grande, las Lagunas, Los Manantiales y Saladas y el arroyito Los Manantiales.
Ademas, se encuentra el agua a diversa profundidad en este campo a consecuencia de los accidentes del terreno y que varia desde 1 hasta 13 metros de profundidad.
Pastos—Los pastos son mezclados, encontrandose el alfilerillo, trevol de carretilla, cola de zorro, pasto duro, flechilla, vinagrillo, té pampa, cebadilla y macandieu, predominando en un 80 o/o el trevol, alfilerillo, pasto duro y cola de zorro.
Este campo es apropiado para hacienda lanar y vacuna, indistintamente, la cual se encuentra en tal estado de gordura que se necesita trabajo encontrar animales que sirvan para el consumo.
Nueva Roma—(Plano B)
Se compone esta fraccion de tres y tres cuartas leguas cuadradas sobre el arroyo Sauce Chico y sus linderos son por el N E Juan y Eduardo Vidal y Francisco Ceico, por el S E. Francisco D Bozzaur, por el N O los mismos Juan y S Vidal y por el S.O. el Sauce Chico, dista este campo del Esquinero Este 4½ leguas de la plaza principal del pueblo Bahia Blanca.
PASTOS—Estos son en general cola de zorro pastos duro y carretilla, existiendo unicamente en sus bajos y muy principalmente en los comprendidos por el arroyo Sauce Chico y Saladillo, Lazaga y Garcia, con gran abundancia el trevol de olor, alfilerillo, mostaza y te pampa. Este terreno es apropiado por su mayor estension a la cria del ganado vacuno.
Calidad de la tierra: es semejante a la de los Manantiales y se nota tambien claramente la fecundidad de ella.
AGUADAS—Tiene el Sauce Chico arroyito permanente de agua dulce y cristalina, tiene ademas dos Saladillos o arroyitos.
Los verticales, debido a lo accidentado del terreno, se encuentran desde los 40 centimetros hasta los 11 metros de profundidad.
La venta de esta fraccion se hara de la manera siguiente—
Lote No. 4—Compuesto de una y media legua cuadrada.
Lote No. 5—Una suerte de estancia o sean tres cuartas leguas con opcion a los Lotes No. 6, y 7, cada lote de 4 leguas.
Creemos de nuestro deber llamar la stencion de los estancieros sobre estos magnificos campos que como ve por los informes del agrimensor son de primera calidad.
Su situacion no puede ser mejor, distan apenas 2½ leguas del Puerto de Bahia Blanca, destinado a ser el mas importante en toda la costa Sud, de donde podran embarcarse directamente todos nuestros productos de la vasta campana Sud de lo Provincia.
El flete dado alli al riachuelo vale unicamente $3 por arb. de lana y enfardilada la mitad.
Ademas es publico y notorio, la prolongacion del ferro carril del Sud desde el Azul a este punto, asi que puede decirse con seguridad, que estos campos en pocos anos valdran de $600 a 800,000 la legua.
Por planos e informes impresos, ocurran a nuestra casa Alsida 78, desde el 20 del corr, en adelante.

AD CORPUS
El Miercoles 18 de Enero
A las 6 de la tarde

Remataremos a la mas alta postura y dinero de contado, perteneciente a la testamentaria del Sr D Pablo Gorostiaga.
Este magnifico terreno compuesto de 17½ vs de frente al Norte por 56 vs 66 cts de fondo al Sur.
El edificio se compone de tres piezas de material construidas en cal, tirantes y alfagias de maderas duras, techos de baldosas al costado izquierdo y en el derecho otra pieza de igual construccion, pozo, letrina etc,
Las cuatro piezas tienen piso de tabla, zocalos y contra marcos, una con cielo-razo de yeso y las otras de lienzo.
Estas piezas por su construccion, pueden servir perfectamente bien como arranque de un buen edificio, pues es solida y moderna.
Debemos llamar la atencion de las personas que buscan terrenos grandes y bien situados para construir casas de familia, sobre este cuarto de tierra que llenara a no dudarlo las exigencias del mas deficil. Buena calle, distante pocas varas del boulevard Callao. Barrio inmejorable lleno de hermosas casas, con tramway que pasa de un estremo a otra de la ciudad cada 3 minutes, hasta media noche, terreno vasto, en fin no se puede pedir mas.

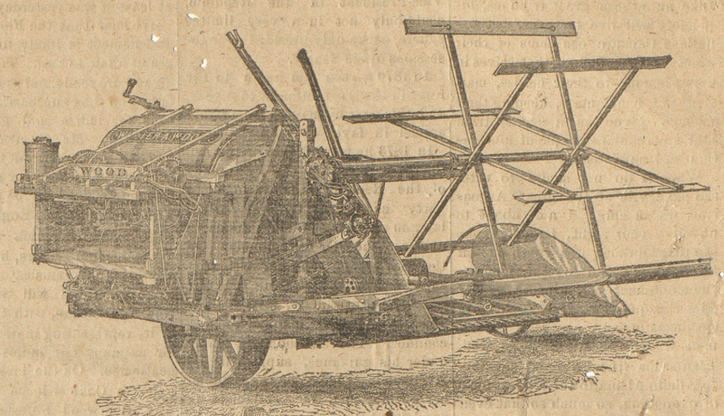
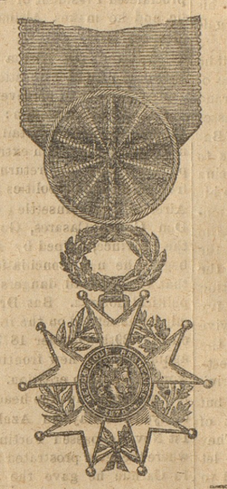
WALTER A. WOOD'S HARVESTING MACHINES





A Competitive Field trial of Automatic Binders was held at Melbourne, in the Province of Victoria, Australia, on the 29th day of November, 1880, under the auspices of the Melbourne International Exhibition and in connection therewith, but under the direction and charge of the National Agricultural Society of Victoria.
The Machines entered for competition were:—
Walter A. Wood's Twine Binder,
Osborne's Wire Binder, Osborne's Twine Binder, McCormack's Wire Binder, McCormack's Twine Binder, Deering's Twine Binder.
(The judges in making their awards did not take into account the material used in binding, whether Wire or Twine, but were governed by the merits of the machine and quality of work done.)
Result of the Trial:
Walter A. Wood's Twine Binder
Was awarded the FIRST PRIZE.

LONDON LETTER

(From our own Correspondent)

December 3rd.

The *Times* of the 1st inst. has three columns on the much-debated question of Bank Reserves. The rivals of Mr. Crump, the city editor of the *Times*, say that he has only puzzled the bankers, and they cannot make out what it all means, especially as he provides no particular remedy. Certainly for the last few years we have often heard his opinions on the subject before; and as far as they go they seem to be sound, although they might perhaps have been put into less space. They are much the same as the late Mr. Bagshot's views. They amount to this: as the country bankers bank with the great London Joint Stock Banks, and these in their turn give their money to the great bill brokers and discount houses who, when it comes to a push, draw directly from the Bank of England, it stands to reason that the reserve, whatever it may be in the Bank, is virtually the last resource for the whole trading and banking community, and that the average reserve of from ten to twelve millions is absurdly inadequate.

Few people will question the truth of the statement. The other matteris 'what is to be done.' There are many suggestions, all of which gather more or less round these propositions; to form a reserve of associated banks, as in New York; to insist upon the joint-stock banks keeping each a larger cash reserve than is now the custom; and, finally, to withdraw from the Bank of England the monopoly of issue, and no longer making the community dependent upon the action of what, after all, is only a private institution. The last is perhaps the most radical remedy, but it would involve ultimately the formation of a State Bank in which all depositors, not mere traders, would have the guarantee of the State; and we are not yet prepared for this class of legislation.

If Paris correspondents are to be believed, the speculation in France at this moment almost rivals that of the days of Law and La Rue Quincampoix. As an instance of the fabulous prices that may, unknown to the world, exist for certain securities in the present gambling fever, the prices of those well-known [illegible] have been mentioned. [illegible]rance has issued 91,250 [illegible]000., and 91,250 shares [illegible]hat is, 182,500 shares [illegible] of 1,050f., or a capital [illegible]f. These shares, which [illegible]allen, now represent [illegible]millions. [illegible]ne Gwynne Davis, [illegible]
in the hope of [illegible]ansom, have dug up the body of the late Earl of Crawford and Balcarres at Dunecht, in Scotland. The body of the late Earl, who died about 12 months ago in Florence, was there embalmed and conveyed with great trouble in a hearse over the Alps, and after a stormy passage by sea to the North of Scotland, it arrived in mid-winter and was very nearly lost in the snow, but was finally deposited in the vault from which it has lately been removed, but how lately is not yet decided.

Professor Ball, the astronomer Royal of Ireland, has astounded the geologists, particularly that portion of them known as the aqueous school in contra-distinction to the igneous, by telling them that the world is not as old as they think. He says that soon after the moon parted company with her mother earth she was only 40,000 miles distant instead of as now 240,000, consequently her tidal and magnetic influence was so strong that the palæozoic rocks were pounded by fearful currents and tides that rose on an average over 600 feet instead of 3 feet as now; and that thus the stratified deposits in the beds of oceans were formed comparatively much more rapidly than it was previously supposed they were formed by the slow action of rivers and silt. The Professor is careful to add that his new mathematical solution of that question affords no consolation to orthodox chronology.

HEADS AND HATS.

In a recent number of the London *Times* received by the mail we find the following which may amuse many of our readers. Sommer ought to be able to say whether people's heads are gettings maller in the Plate. In this country the women have the largest heads:—

The subject of the alleged diminution in the size of men's heads during the past generation is one that has been attracting some attention recently, and the whole question is very fully discussed in *Nature* by several correspondents. Mr. F. F. Tuckett adduces the statements and figures of a number of well-known hatters to prove that within the last 25 years the average size of hats has decreased by one size—i.e., by about in. ⅛ths in circumference. That this is the case with regard to hats there can be no doubt, but that the decrease is owing to a diminution in the size of the average head it would be very difficult to prove. If we remember that men now cut their hair quite close to the head and wear their hats on the top of their heads instead of down on their ears, the ⅛in. may easily be accounted for. Indeed, the weight of evidence is entirely against any such explanation as the hatters would like to make out, and Dr. Charles Roberts puts the case very clearly. Mr. Roberts, moreover, refers to several other points of serious interest to all civilized communities. "The chief reason for the falling off in the dimensions of hats in the present day," Mr. Roberts states, "is the accession to the hatwearing community of a very large number of smallheaded persons, such as clerks and shopmen, who formerly did not wear hats at all; and, on the other hand, the defection of a large-headed class, the clergy, who have given up tall hats and taken to the use of soft felt ones. The only way hatters' measurements could be made available for anthropological purposes would be to examine the statistics of one class, say the professional, who have always worn hats, and then allow for the change of fashion in the hair and the position of the hat in the present day. If it is really the case that the heads of the present generation are smaller than those of the last, we must look for the cause not in tight lacing, but in the diminished size or the deformity of the female pelvis, for it is this which is the gauge of the heads of the people. Male infants are longer, heavier, and have longer heads than females, and at the time of birth a greater destruction of males takes place in consequence. In Europe, the proportion of infants born alive is 105 males to 100 females; but if we include the still-births, the proportion of the sexes is 150 males to 100 females, showing that there is a sad loss of some of the finest physical and probably mental products of our race by the more mechanical difficulties at the time of birth. There can be no doubt that rickety conditions of town children and the sedentary or persistent standing occupations of young girls in shops, &c., will tend to distort the pelvis and thus act injuriously on the race by reducing both the physical and mental standard of their children. There can be no doubt that our large towns are, as it were, the graves of the physique of our race; but it is not because town life is so very injurious, but because the feeble, the halt, and the blind gravitate towards them in search of work suitable to their capacities. So far from admitting the degeneracy of our population as a whole, I am satisfied that it is improving in physique, and is better now than at any former period of our history. The skill and care which save the weak child to the community give health and strength to the strong, and the physique of the whole is raised to a higher level. It is difficult to find direct evidence of this improvement, but some statistics of the stature and weight of factory children (where we might expect degeneracy, if anywhere) recorded in 1833 and 1873 show that the children of the latter period were a whole year in advance of the former—children of 10 or 11 years of age in 1873 being as tall and as heavy as those of 11 and 12 50 years previously." Mr. Tuckett gives some figures with regard to the sizes of hats worn by several eminent men which may interest the curious in these matters:—Lord Chelmsford, 6½ full; Dean Stanley, 6⅞; Lord Beaconsfield, 7; the Prince of Wales, 7 full; Charles Dickens, 7⅛; Lord Selbourne, 7⅛; John Bright, 7⅛; Earl Russell, 7⅛; Lord Macaulay, 7⅜; Mr Gladstone, 7⅜; Mr Thackeray 7⅝; Louis Philippe, 7¾; M. Julien, 7¾; Archbishop of York, 8 full. Whatever may be the case with regard to brains, it would scarcely seem from these figures that the hats are a criterion of brain-power.

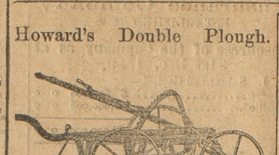
HOWARD'S CELEBRATED MACHINES

Howard's Double Plough.

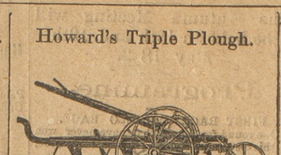


The above implement effects great economy in the time and cost of ploughing, and its success has been very marked wherever it has been introduced. The depth of work can be regulated by the lever as the plough proceeds, and at the ends, the plough is lifted by the same lever clear off the ground.

The implement is so strongly constructed that in the hands of Kaffirs it cannot readily be injured.

With steel breasts.....
With steel breasts butwithout coulters
Weight 4½ cwt.

Howard's Triple Plough.



This is similar in construction to the preceding implement, but made to take three furrows. It may at once be converted into a Double Plough by the removal of the hinder body, and this is sometimes desirable on ground where the draught is heavy.

With steel breasts.....
With steel breasts but without coulters.....
Weight 5½ cwt.

Howard's Mealie Drill Plough

The marked succes of J. & F. HOWARD'S Multiple Ploughs has led to a great and increasing demand for these labour-saving implements.

In addition to the economy effected by their use in time and wages, their usefulness has been materially increased by the addition of a simple drill which deposits the seed in the middle furrow, where it is immediately covered with the earth raised by the next plough share.

By this means the cost of sowing is avoided, and no seed is wasted by being exposed to birds or vermin, nor is it trodden by the draught cattle. The seed is moreover sown at a uniform width and depth, and thus a regular growth of the crop is insured.

With steel breasts.....
With steel breasts but without coulters.....
Weight 4 cwt.
Maize Drill, £1 10s. extra.

The above Machines kept in Stock by the Principal Hardware Merchants.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

AS THE ORIGINAL AND ONLY GENUINE.

—o—

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J. Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

—o—

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London. "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, Dr. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy, & Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

Special Steel Wire of the Creusot Works.

This Wire, the very best ever imported into the River Plate, has been tried against a others in this market and gave best results. Its price combined with its quality allow Steel Wire fences to be made cheaper than iron wire fences, both having equal resisting power.

VENTAS EN REMATE

Con arreglo a la Ley 26 de Diciembre de 1878

—o—

Se avisa al publico que en los dias 27, 28 y 30 de Enero de 1882 se procedera a la venta en remate publico de los terrenos que componen la seccion 10ª. Esta seccion se halla dividida en 223 lotes de mil hectareas cada uno, con escepcion de los que se detallan a continuacion—

Numero	Hectareas	Areas	Centiareas
197 á 210	637	66	66
211 á	770	45	07
212 á	582	29	84
213 á	1075	27	98
214 á	542	95	63
215 á	624	89	59
216 á	57	96	36
217 á	748	66	67
218 á	1120	77	86
219 á	1493	85	28
220 á	862	33	92
221 á	1226	74	85
222 á	588	88	44
223 á	990	45	10

La base de venta sera de $20 m/c la hectarea.

Sera puesto en remate todo lote por el cual se hiciese oferta y el comprador tendra accion para comprar hasta 30 lotes contiguos por el precio en que le hubiere sido adjudicado el primero.

Ninguna persona o sociedad podra comprar mas de treinta mil hectareas.

El precio de la tierra debera pagarse: una decima parte al contado y el resto en ocho partes iguales, una al vencimiento de cada año. Los compradores firmaran letras por la parte del precio a plazos.

Si las letras no fuesen pagadas a su vencimiento, la Oficina de Tierras podra hacerlas cobrar ejecutivamente o declarar rescindido el contrato, perdiendo el comprador en este caso, la primera cuota entregada.

Si el importe del terreno se pagase al contado o si en cualquier epoca se quisiera hacer entrega de los plazos no vencidos, se rebajara el interes de 6 c/o anual sobre dichos vencimientos.
